

Help bring the pot to the boil...

Contributed by Claire Carpenter

Plans for a new Edinburgh based support service for socially and environmentally progressive organisations working throughout Scotland have just been given a £20,000 funding boost from the Big Lottery.

The Melting Pot will offer a variety of work and meeting spaces, available by the hour, the day or the month. The two grants are to demonstrate the need for our services – attractive, affordable and accessible serviced spaces in a central location, where a diverse network of people and organisations involved in social change can work, meet, play and make unusual things happen.

To ensure you, your organisation and others can access these resources, and to find out more, visit www.themeltingpotedinburgh.org and register your interest now, or contact Claire on 0845 458 3211.
